

## JOB POSTING

# Associate Audio Visual Services Technician

Vicom - Virginia Integrated Communication – Virginia Beach

**Department:** AV Integration

**Reports to:** AV Integration/Support Services Manager

The Associate Audio Visual Services Technician is responsible for assisting in the A/V integration and/or infrastructure support needs of our customers. The Associate level Technician is typically teamed with a Lead Technician or Field Engineer for guidance and supervision on each project. Job assignments ordinarily relate to a form of Video and Audio Visual technology, to include but not limited to: large displays, projectors and screens, interactive boards, speakers, amplifiers, audio/video switchers, mixers, microphones, control systems, videoconferencing units, various wire termination, cabling and wiring systems.

***Employee Owned. Customer Focused.*** Vicom is an industry leader dedicated to providing customers with complete integrated solutions and services through every outlet from - initial planning, consultation, design, integration, and implementation. Vicom is 100% employee owned. Employees are empowered to act and think like owners because, they are owners! All employee owners have a vested stake in the company which means their commitment to our communities, customers, and each other is unparalleled.

### **Essential Duties and Responsibilities:**

- Aid in the installation and/or repair of large displays, projectors and screens, interactive boards, speakers, amplifiers, audio/video switchers, mixers, microphones, control systems, and videoconferencing units.
- Installing copper, coaxial and fiber cabling and wiring systems on the customer sites.
- Installation of cable pathways and support systems and the placing, termination, testing and labeling of cable and wire.
- Maintain complete and accurate documentation for time and expenses as they occur.
- Assist in troubleshooting technical issues with project equipment.

### **Additional Duties and Responsibilities:**

- Continually work to improve customer service perception, and satisfaction.
- Escalate service issues that cannot be completed within defined service levels.
- Document and label various systems related to each project.
- Interfacing with Vicom's other divisions to support projects and troubleshooting on voice, video, camera, security and access control systems.

## **Knowledge, Skills, and/or Abilities Required:**

To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Ability to take direction from Project Manager / Lead Technician while overseeing specific elements of a given project.
- Have / maintain valid driver's license and approved / clean driving record.
- Ability to pass a criminal background check.
- Ability to work in a team and communicate effectively
- Ability to properly and safely use (*or learn*) and operate lifts, scaffolding, hand tools, power tools, and diagnostic test equipment
- Ability to work aloft, and in confined spaces when required
- Work through a daily schedule that has been established through the dispatch process
- Ability for some day-to-day shift flexibility and travel to complete assignments
- Obtain and/or Maintain vendor technical certifications
- Fundamental Computer skills
- Physical condition to perform job duties including seeing/hearing; fingering/feeling/handling/reaching; bending/crouching/squatting/kneeling/pushing/pulling/lifting/carrying weights in excess of 70 pounds (heavy work); tolerance for prolonged walking or standing on various surfaces
- A/V knowledge preferred but not required
